On Community Inclusion of Individuals with Psychiatric Disabilities

Explore the World with Google Arts and Culture!

Area of community participation: Education, leisure and recreation, parenting

Description of activity: Want to visit America's national parks, like Yellowstone and the volcanoes of Hawaii, or take a virtual walk through the most famous art galleries and museums in the world? Google Arts and Culture is an incredible opportunity to explore everything our world has to offer. Dive in to learn about historical figures and events, explore natural wonders, and even perform virtual science experiments!

When the need for social distancing decreases and you begin to spend more time with family and friends, you can tell them what you learned, and maybe even plan a trip to visit! Google Arts and Culture is a great way for you to virtually participate in your community, as well as plan ahead for in-person participation!

Resources/Materials needed: Computer, tablet, or smartphone

Potential Benefits:

Education - With more free time on your hands, why not take this opportunity to learn about new topics? Learning can be fun in a stress-free environment – think of something you've always wanted to know more about and pursue it on your own time!

Leisure - If you love visiting museums or historical sites, but your plans are on hold due to social distancing, view Google Arts and Culture as a way to continue your normal activities online! Take a stroll through your favorite spot, or one you've always wanted to visit.

Parenting – Struggling to fill the day now that your children are home from school? Explore Google Arts and Culture with them – they'll be having so much fun, they might not even realize they're learning!
